2017 Release, Statistical Module¹

Country notes for Bulgaria

31 July 2017

Data extracted from Eurostat: 3 July 2017

Synopsis of the main points

- Official output data in NACE 2 from Eurostat are released for 1999-2015.
- Official labour data in NACE 2 from Eurostat are released for 2000-2015.
- Official capital data in NACE 2 from Eurostat are released for 1998-2015 with substantial gaps. Capital stocks are not available for Bulgaria. Most asset types are only published for the total economy, see table A2 in the appendix for more details.
- Gross output and intermediate input prices are neither available from Eurostat nor the OECD STAN database.
- New LFS and SES data for the years 2008-2015 are taken into account to compute labour services. Linkages to labour services from prior releases are not possible because the country was not released prior to 2017.
- Growth accounts are not calculated due to substantial gaps in capital data.

¹ This release of the EU KLEMS database is funded by the European Commission, Directorate General Economic and Financial Affairs under the service contract ECFIN-163-2015/SI2.716986. Any errors or omissions are entirely the responsibility of the Conference Board. I am grateful to my Conference Board colleagues, Abdul Azeez Erumban, Oliver Henrich, Frank Steemers, Klaas de Vries, and Bart van Ark for their support at various stages in the process. I also thanks Antonio F. Amores, Bernd Görzig, Chantal Kegels, Martin Gornig, and Laurence Nayman for their advice.
