31 July 2017

Data extracted from Eurostat: 3 July 2017

Synopsis of the main points

- Official output and labour data in NACE 2 from Eurostat are released for 1995-2015 with the exception of hours worked (H_EMP and H_EMPE).
- Official capital data in NACE 2 from Eurostat are released for 1995-2015 (gross fixed capital formation) and 1995-2014 (capital stocks) with substantial gaps. The assets 'computing equipment' and 'communications equipment' are not available from Eurostat. All other asset types are published only for the total economy or main sections with alphabetical codes, see table A2 in the appendix for more details.
- Gross output and intermediate input prices are neither available from Eurostat nor the OECD STAN database.
- New LFS and SES data for the years 2011-2015 are taken into account to compute labour services. It is not possible to link labour services to former releases because hours worked are missing prior to 2010.
- Growth accounts are not calculated due to substantial gaps in capital data.

¹ This release of the EU KLEMS database is funded by the European Commission, Directorate General Economic and Financial Affairs under the service contract ECFIN-163-2015/SI2.716986. Any errors or omissions are entirely the responsibility of the Conference Board. I am grateful to my Conference Board colleagues, Abdul Azeez Erumban, Oliver Henrich, Frank Steemers, Klaas de Vries, and Bart van Ark for their support at various stages in the process. I also thanks Antonio F. Amores, Bernd Görzig, Chantal Kegels, Martin Gornig, and Laurence Nayman for their advice. A number of systematic cross checks on preliminary versions of the database have been performed by Matilde Mas and Reitze Gouma. Our special gratitude goes to Reitze Gouma and Marcel P. Timmer for their support to transfer EU KLEMS to The Conference Board and to Ana Rincon-Aznar and Mary O'Mahony for the provision of data from the EU Labour Force Surveys.
