Data extracted from Eurostat: 3 July 2017

### Synopsis of the main points

- Official output data in NACE 2 from Eurostat are released for 1995-2015. Value added prices and volumes are not available for Malta.
- Official labour data in NACE 2 from Eurostat are released for 2007-2015.
- Official capital data in NACE 2 from Eurostat are released for 2000-2015 (only gross fixed capital formation), capital stocks are lacking. Gross fixed capital formation for ‘Software and databases’ is not available from Eurostat.
- Gross output and intermediate input prices are neither available from Eurostat nor the OECD STAN database.
- New LFS and SES data for the years 2009-2015 are taken into account to compute labour services. It is not possible to link labour services to former releases as labour services were not published in the 2009 release.
- Growth accounts are not calculated due to substantial gaps in capital data.
