## 2017 Release, Statistical Module<sup>1</sup>

### Country notes for Slovakia

Prepared by  
Kirsten Jäger  
(The Conference Board)

31 July 2017

Data extracted from Eurostat: 3 July 2017

#### Synopsis of the main points

- Official output and labour data in NACE 2 from Eurostat are released for 1995-2015.
- Official capital data in NACE 2 from Eurostat are released for 1995/2000-2015 (gross fixed capital formation) and 2004-2015 (capital stocks) depending on the asset type.
- Gross output and intermediate input prices are not available from Eurostat and are added from the OECD STAN database for 1995-2015: SNA08, ISIC REV.4 version of STAN (December 2016). The corresponding volumes are calculated using Eurostat nominals and OECD prices.
- New LFS and SES data for the years 2008-2015 are taken into account to compute labour services. The country was not released in 2012, but we linked labour services to the 2009 release which comprises labour services from 1995-2007 in NACE 1. Wage bill shares and shares of employment by labour forces category for the bridging year 2008 in NACE 1 stems from the February 2013 INDICSER release<sup>2</sup>. The bridging year is needed to link the latest labour services estimates in NACE 2 to NACE 1 by applying NACE 1 growth rates prior to 2008.
- Growth accounts are released only for 2005-2015 given the constraints in capital stocks.
